

NNIT's **DevOps** Manifesto

ENGAGING IN **AGILE ECOSYSTEMS** TO ENABLE
ACCELERATED BUSINESS TRANSFORMATIONS
AND **INNOVATION**

We wish to **collaborate** closely with our customers' business units

We wish to **deploy** releases automatically and with high frequency

We wish to **change** the way we work together

We wish to **deliver** with high quality and transparency

DevOps Delivery models

DevOps @ NNIT

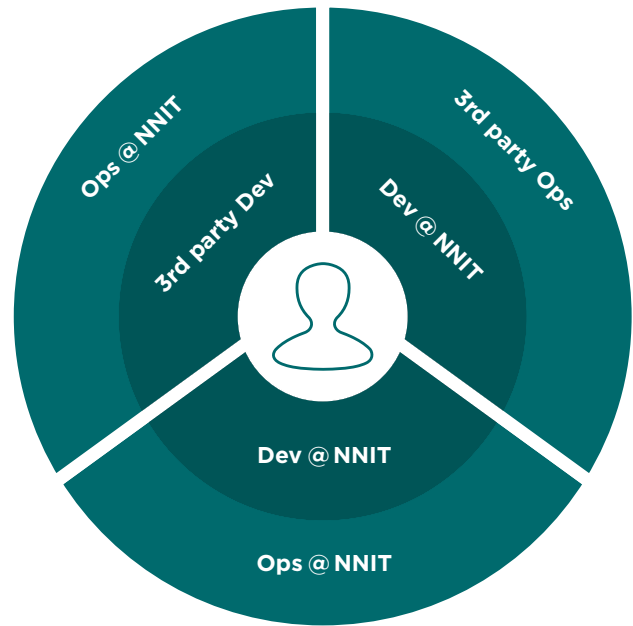

NNIT is responsible for the complete lifecycle from Dev to Ops with automated Continuous Integration and Continuous Delivery.

Dev @ NNIT

NNIT is responsible for agile development integrated with 3rd party operations delivered with full DevOps spirit.

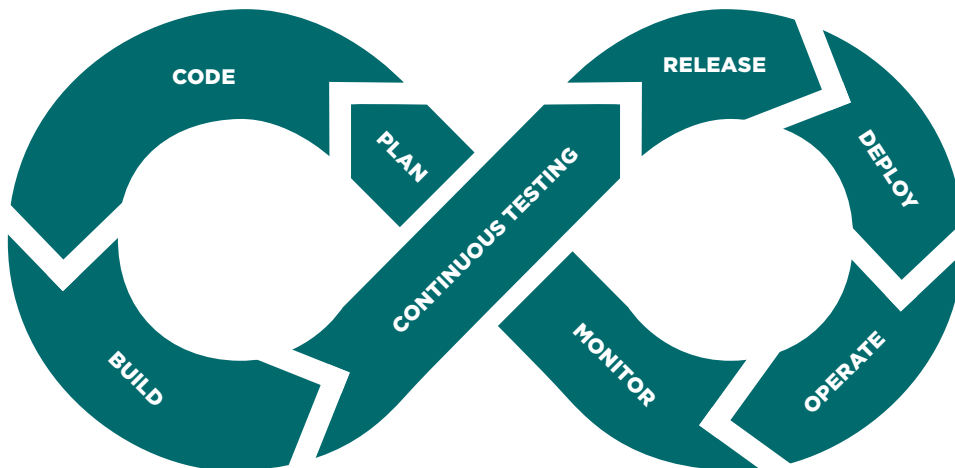

Ops @ NNIT

NNIT is responsible for Continuous Delivery of Operations in a DevOps spirit integrated with 3rd party development.

Application lifecycle

NNITs controlled application lifecycle process and collaboration model applies structured DevOps principles all the way from code to deployment in our delivery models.

We can also help you setup, transition to and advise on DevOps delivery models, technologies, implementation and best practice.

Martin Kold; kold@nnit.com or 3079 8328 - or Henning Larsen; hnlr@nnit.com or 3075 7998.

About NNIT

NNIT is an international IT service provider offering IT consulting and the development, implementation and operation of IT solutions. We create value for our private and public sector customers by treating their IT as if it were our own. We use IT to support our customers' daily operations and help them to achieve their business goals.
